The London pelvis and acetabular fracture course

14 May 2018

Venue: Museum Depot, Acton Town, London

This course will be aimed at the level of trauma fellowship/specialist registrar working at a major trauma centre. The candidate will obtain a sufficient level of understanding of P+A fractures at the FRCS Orth/trauma fellowship level. Surgical skills in percutaneous and open treatment of pelvis and acetabular fractures will be covered in the practical sessions.

**Topics include:**

- Emergency treatment of the exsanguinating pelvis ring fracture
- Emergency/peri-operative treatment of fracture dislocations of acetabular fracture
- Understanding the diagnosis and treatment algorithm acetabular fractures
- Understanding the diagnosis and treatment algorithm pelvis ring fractures
- Peri-operative treatment of associated complications (e.g., bladder injuries, VTE prophylaxis, sciatic nerve injuries)
- Treatment of fragility fractures of pelvis and acetabulum

**Drybone plus image intensifier workshops include:**

- Posterior wall/posterior column acetabular fracture, reduction and fixation
- Vertical shear pelvis ring fracture reduction with Starr Frame and SI screw fixation
- Infix application

**Faculty includes:**

Mr Peter Bates, Consultant Trauma and Orthopaedic Surgeon, Royal London Hospital
Mr Martin Bircher, Consultant Trauma and Orthopedic Surgeon, Ashtead Hospital
Mr Matt Gee, Consultant Orthopaedic Surgeon, King’s College Hospital NHS Major Trauma Centre
Mr Paul Gillespie, Consultant Orthopaedic Surgeon, St George’s Hospital
