Anatomy Teaching Facility
St George’s University of London
Cranmer Terrace
London
SW17 0RE

By train:
Tooting mainline station is a 15 minute walk away. The line runs from Wimbledon to Luton and Bedford, via King’s Cross. Visit the Thameslink website for more information.

By tube:
The nearest tube station is Tooting Broadway (Northern Line, Zone 3), about 22 minutes from London Bridge and 25 minutes from Waterloo. St George’s is about five minutes’ walk from the underground station. Consult the Transport for London website for further details.

By bus:
Several buses stop directly outside St George’s, and even more stop at Tooting Broadway underground station: 44, 57, 77, 131, 155, 219, 267, 270, 280, 493 and G1.

By car:
The University does not have public car-parking space so, though there is a limited amount of pay-and-display parking in the area, public transport is strongly advised.

18—19 March 2019

Venue: St George’s University of London

Course convenors: Professor Duncan Tennent, Mr Magnus Arnander and Mr Yemi Pearse, Consultant Orthopaedic Surgeons, St George’s Hospital

CPD: 10 credits (applied for)
Educational aims and objectives

Aimed at senior trainees, fellows and consultants with an interest in upper limb trauma, this hands-on cadaveric course offers the opportunity to develop skills and confidence in approaches to the shoulder girdle in the context of trauma. It will focus on approaches and techniques for treatment of injuries to the shoulder joint, ACJ, clavicle and scapula. Sponsorship from companies will ensure different implants and equipment will be available to allow training in these. There will be some interactive academic/case based content from the faculty, with the emphasis on hands-on training in the cadaveric lab, and sharing of tips and tricks.

This will be complemented by a similar course next year focusing on the elbow.

Registration fees

Delegate fee: £350

Registration with ORUK is essential before registering online for our educational events. It also brings other benefits, which include applying for research funding.

Registration is free and open to all, join online here: www.oruk.org/register

Programme (DAY 1)

Monday 18 March 2019

09:50 Registration and refreshments
10:20 Welcome and introduction
Course convenors
10:30 Surgical approaches to the proximal humerus
Mr Yemi Pearse, Consultant Orthopaedic Surgeon, St George’s Hospital
Mr Magnus Arnander, Consultant Orthopaedic Surgeon, St George’s Hospital

Decision making and fracture patterns
Professor Duncan Tennent, Consultant Orthopaedic Surgeon, St George’s Hospital

11:30 Company updates preceding cadaveric workshop
11:50 Cadaveric workshop; Deltopectoral approach, proximal humeral fracture plating, anterosuperior approach, GT fracture speedbridge
13:20 Lunch
14:20 Lateral clavicle fractures
Mr Yemi Pearse, Consultant Orthopaedic Surgeon, St George’s Hospital
ACJ
Mr Magnus Arnander, Consultant Orthopaedic Surgeon, St George’s Hospital

14:50 Company updates preceding cadaveric workshop
15:10 Cadaveric workshop; Lateral clavicle fractures/ACJ
16:40 Close of day

Programme (DAY 2)

Tuesday 19 March 2019

09:30 Refreshments
10:00 Reverse shoulder arthroplasty - technique and rationale
Mr Yemi Pearse, Consultant Orthopaedic Surgeon, St George’s Hospital

11:00 Company updates preceding cadaveric workshop
11:20 Cadaveric workshop; Reverse total shoulder replacement
12:50 Lunch
13:50 Scapula fractures
Professor Duncan Tennent, Consultant Orthopaedic Surgeon, St George’s Hospital

14:50 Company updates preceding cadaveric workshop
15:10 Cadaveric workshop; Scapula fractures
16:40 Summary and close of course
