Educational aims and objectives

This one day paediatric trauma course is designed for junior registrars (ST3-5) and involves interactive lectures and hands on practical sessions.

The morning consists of interactive case based discussions covering the breadth of paediatric trauma. In the afternoon you will rotate through practical stations including; K wiring of supracondylar fractures, flexible IM nailing, hip spica application, and techniques for ankle fracture fixation including triplane fractures.

There will be a Q&A session at the end to clarify anything from the day.

Registration fees

Registration fee: £100

We only have 24 spaces available for this course, so please ensure you book early to avoid disappointment.

Registration with ORUK is essential before registering online for our educational events. It also brings other benefits, which include applying for research funding.
